

ngx_slab.h Documentation

Data Structures Defined:

```
struct ngx_slab_page_s {
    uintptr_t      slab;
    ngx_slab_page_t *next;
    uintptr_t      prev;
};

typedef struct {
    ngx_shmtx_sh_t  lock;
    size_t          min_size;
    size_t          min_shift;
    ngx_slab_page_t *pages;
    ngx_slab_page_t *last;
    ngx_slab_page_t free;
    u_char          *start;
    u_char          *end;
    ngx_shmtx_t      mutex;
    u_char          *log_ctx;
    u_char          zero;
    unsigned        log_nomem:1;
    void            *data;
    void            *addr;
} ngx_slab_pool_t;
```

Macros Defined:

No macros defined

Type definitions:

```
typedef struct ngx_slab_page_s ngx_slab_page
```

Functions Declared:

No functions define
